PROFESSIONAL EXPERIENCE

AEM Developer | Amay Exim (US Pharma Client)

Dec 2023 – Present

Client: Dignity Health / CommonSpirit Health | AEM as a Cloud Service, AEM Forms, React, FHIR, Adobe Analytics

- Built multistep Adaptive Forms with custom form handlers; generated PDFs, uploaded to Google Drive via API, and triggered confirmation emails to users and business stakeholders.
- Developed reusable AEM components (Find a doctor, find a Location, Get Care Now, Specialties, Patient Stories, Health Blogs) using Sling Models, HTL, Content Fragments, and Experience Fragments.
- Created custom Sling Servlets and REST/JSON integrations for doctor search, location filtering, geolocation personalization, and specialty-based content retrieval.
- Implemented Adobe Client Data Layer (ACDL) for AEM and React components to push component metadata for analytics tracking.
- Delivered React-based dynamic components integrated with Blockit APIs; used selector-based pages and Content Fragments for authorable doctor/location detail templates.
- Partnered with product, UI/UX, and QA in discovery; produced author-friendly dialogs, training docs, and test scenarios enabling scalable content operations.

AEM Consultant | HCL Technologies (Noida & Vancouver)

Oct 2014 – Nov 2023

Barracuda Networks — AEM Consultant | AEM as a Cloud Service, Adobe Target, Analytics, Smartling | Nov 2021 – Oct 2023

- Led migration of Barracuda Corp, MSP, and Blog sites from legacy stack to AEMaaS; integrated Smartling, Adobe Target, and Adobe Analytics.
- Built migration scripts moving 1,000+ Blog, Article, Topic, and Category pages to AEM Cloud, cutting manual authoring effort.
- Developed custom rollout configurations for Experience Fragments, language-master workflows, and multisite restructuring aligned to Adobe best practices.
- Guided team design/code reviews, resolved complex implementation issues, and enforced Agile engineering standards.

AstraZeneca Champion & Vaccine — AEM Consultant | AEM 6.5 Sites & Forms, MuleSoft, FHIR, Salesforce | Apr 2019 – Feb 2021

- Delivered AEM Sites and Adaptive Forms for adverse event reporting, product quality complaints, and medical information requests; integrated FHIR, MuleSoft, Salesforce, Smartling, and reCAPTCHA.
- Architected component/OSGi strategies using Sling Services, HTL, Guide Bridge API; mentored developers and supported pre-prod/production releases.

Earlier AEM Roles (HCL) — Developed and maintained enterprise database solutions using **SQL Server and MySQL**, including stored procedures, functions, views, and complex SQL queries.
